

Easy3000/4000 – Easy start Side 2/6

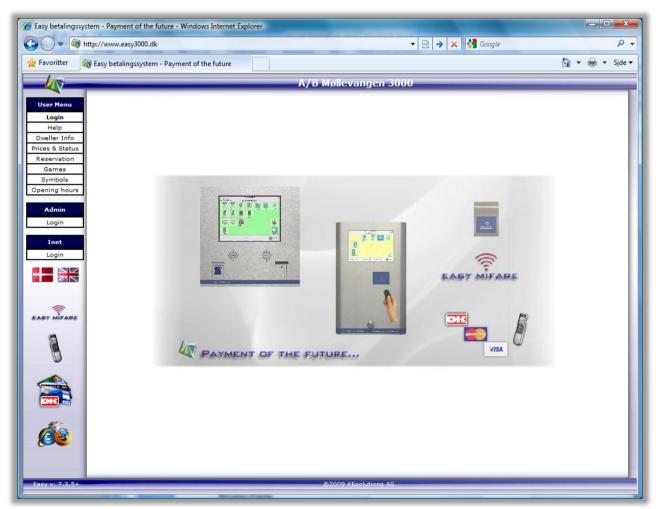

4. User interface on the Internet

• Easylaundry.eu

Visit www.easylaundry.eu, click Login and enter the Housing society name and place no. and you are being redirected to the Laundries Internet interface.

- This can also be performed on some mobile phones.

User interface

Menus, which is located on the left side of the screen is divided into three categories: one for users, one for the daily administration and one for the office property that is extract the data.

All viewing is to the right of the menus. It is possible to view the page in Danish and English.

If there are users who have installed "Popup Blocking" on their PC, you should probably give the right to use the "Popup windows". This is used in particular in the booking calendar.

The system saves the IP address and time for all who log into the Internet pages.

• Compatibility requirements

Users' Internet browser must support ASP, but it makes all browsers today. MS IE7.0 or later is recommended and with a screen resolution of 1024x800.

• Transfer amount (cash systems with credit card options)

Users can transfer amount to their chip card/tag by a credit card e.g. Visa card.

- Different cards are available.

You will be guided trough the transfer. It's just like an ordinary Internet shopping.

- Click on »Transfer amount« in the user menu

In the top you can see which cards there are supported.

First time you make a transfer, you need to fill out an E-mail address. The system will remember it to the next time.

- Click »Continue«

Select or fill out the amount you want to transfer to the chip card

Click »Check out«

PayPal will be handling the creditcard transactions You can use Visa and Master card.

Fill out Card no., expiry date and control no. or if you have a PayPal account, just fillout you E-mail and PayPal password.

Click »OK« and approve the transfer.

After a few seconds the payment is approved.

Your reciept is showing.
 The receipt has also been send to your E-mails address.

The tranfered amount can now be seen in »My Transfers«

Note!

With PayPal you can make the transfer without the user needs a PayPal account, but if the user have one it is a little bit faster to make the transfer because you can store the card ID in the PayPal account. (A lot of young people have a PayPal account)

Print reciept

You should also be able to transfer money from you own bank account to the PayPal account and then use that amount in this system instead of the credit card - there are some possibilities.
